E mahalo kākou i ka mea loa‘a.
Let us be thankful for what we have.

Warning & Evacuation Procedures

Familiarize yourself with our Attention Alert procedures: QLT staff will sound a vehicle horn 3 times, pause, and sound the horn 3 more times (Attention Alert signal). You will receive a text message with emergency instructions on the phone number you’ve provided; otherwise, assemble around the vehicle to receive emergency instructions.

Safety Procedures

Keahuōlū shoreline can be very dangerous with unpredictable swells/surges even when ocean conditions appear calm. No lifeguards on duty, so please be careful and watch out for each other, especially in blowhole areas. The entire shoreline may be closed and evacuated when conditions are too dangerous or when ordered by Civil Defense. Please use life jackets when appropriate.

Bees are attracted to water around showers and spigots. If anyone in your group is allergic to bees or other stinging insects, please bring proper medication. We do not dispense medication.

Local Earthquakes

If an earthquake occurs, seek higher ground immediately. Strong earthquakes may generate tsunamis and the tremors may be the only warning you receive.

‘Ike aku, ‘ike mai.
Kōkua aku, kōkua mai.
Pēlā ka nohona ‘ohana.
Watch, observe.
Help others and accept help.
That is the family way.
